YOUR GUIDE TO THE SUN

[ERGOLINE.DE/EN](https://ergoline.de/en)

Ergoline

VISIONARY TECHNOLOGY FOR A SUCCESSFUL FUTURE

For more than 30 years, the most popular sunbed brand has been delighting its customers with innovative UV and light technologies. From UV-free skincare to hybrid treatments, right up to conventional tanning with and without skin sensors, Ergoline has the right device to suit all users' needs. No matter which product you go for, you will always be on the safe side if you invest in the best of the best.

FEATURES & BENEFITS

EXCLUSIVE AT ERGOLINE

BEAUTY LIGHT COMPLETE

More than 200 Beauty Light LEDs

The main thing stopping people to use sunbeds is the fear of wrinkles and premature skin aging. With the Prestige Lightvision, special attention has been paid to improving skincare. More than 200 high-performance LEDs guarantee an effective skincare for face, neck, shoulders and body. At the same time, the red light activates the supply of oxygen to the skin, which boosts the tanning effect. For an all-round glowing complexion and smooth skin.

ACTIVATING LIGHT LED

Immediate visible WOW effect.

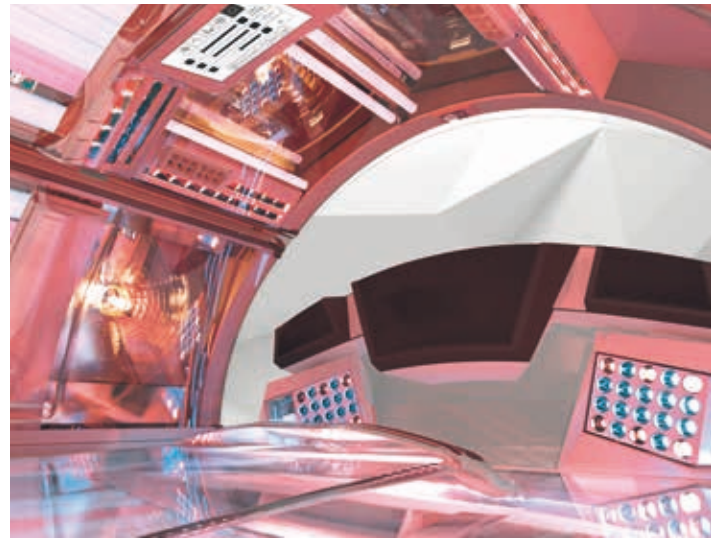

Blue light activates the organism, has energising properties and boosts performance. In the skin it acts like a conductor to ensure that the individual light reactions are well-coordinated. Blue light signals the presence of sunlight to the cells and therefore leads to faster tanning. The use of the Activating Light Technology (patent pending in Switzerland) allows more intense tanning results with the same UV dose.

SHOULDER TAN HYBRID & UV LED

Available as hybrid- or UV-version.

The Prestige Lightvision offers the world's first combination of Beauty Light LEDs, UVA LEDs and UVB compact lamps. For a beautiful tan with additional skincare in the shoulder area. Prestige Bluevision and Prestige Pure guarantee intense tanning with 40 UVA LEDs and UVB compact lamps. Despite the improved performance, the energy consumption of the shoulder tanners has been reduced by 80 % compared with the previous model.

PERSONAL SUNSTYLE

Choose your UV intensity, from gentle to intensive.

The tan you want at the touch of a button! Users can choose their own personalised tanning experience from three tanning programmes. Whether they want a light tan or an immediate visible deep tan: Personal Sunstyle offers ideal tanning for any customer. The intensity of the UV performance can be adjusted at any time during the tanning session or switched off completely. This means it is also possible to enjoy a UV-free skincare treatment just with Beauty Light.

EXTERIOR TOUCH CONTROL

Add your own videos.

The new video function offers the option of playing explanatory videos and your adverts. Another brand new feature is the demo mode, which can be used to explain the tanning bed to your customers. Once the tanning intensity has been selected, all the important comfort features can be set and saved with NFC.

INTERIOR TOUCH CONTROL

Intuitive operation whilst tanning.

The 7" interior touch display makes the operation easier than ever. When tanning starts, the display changes to black and white mode, which makes it much easier to read, even when wearing UV protective goggles. The self-explanatory operation makes it easy and intuitive to change all the settings.

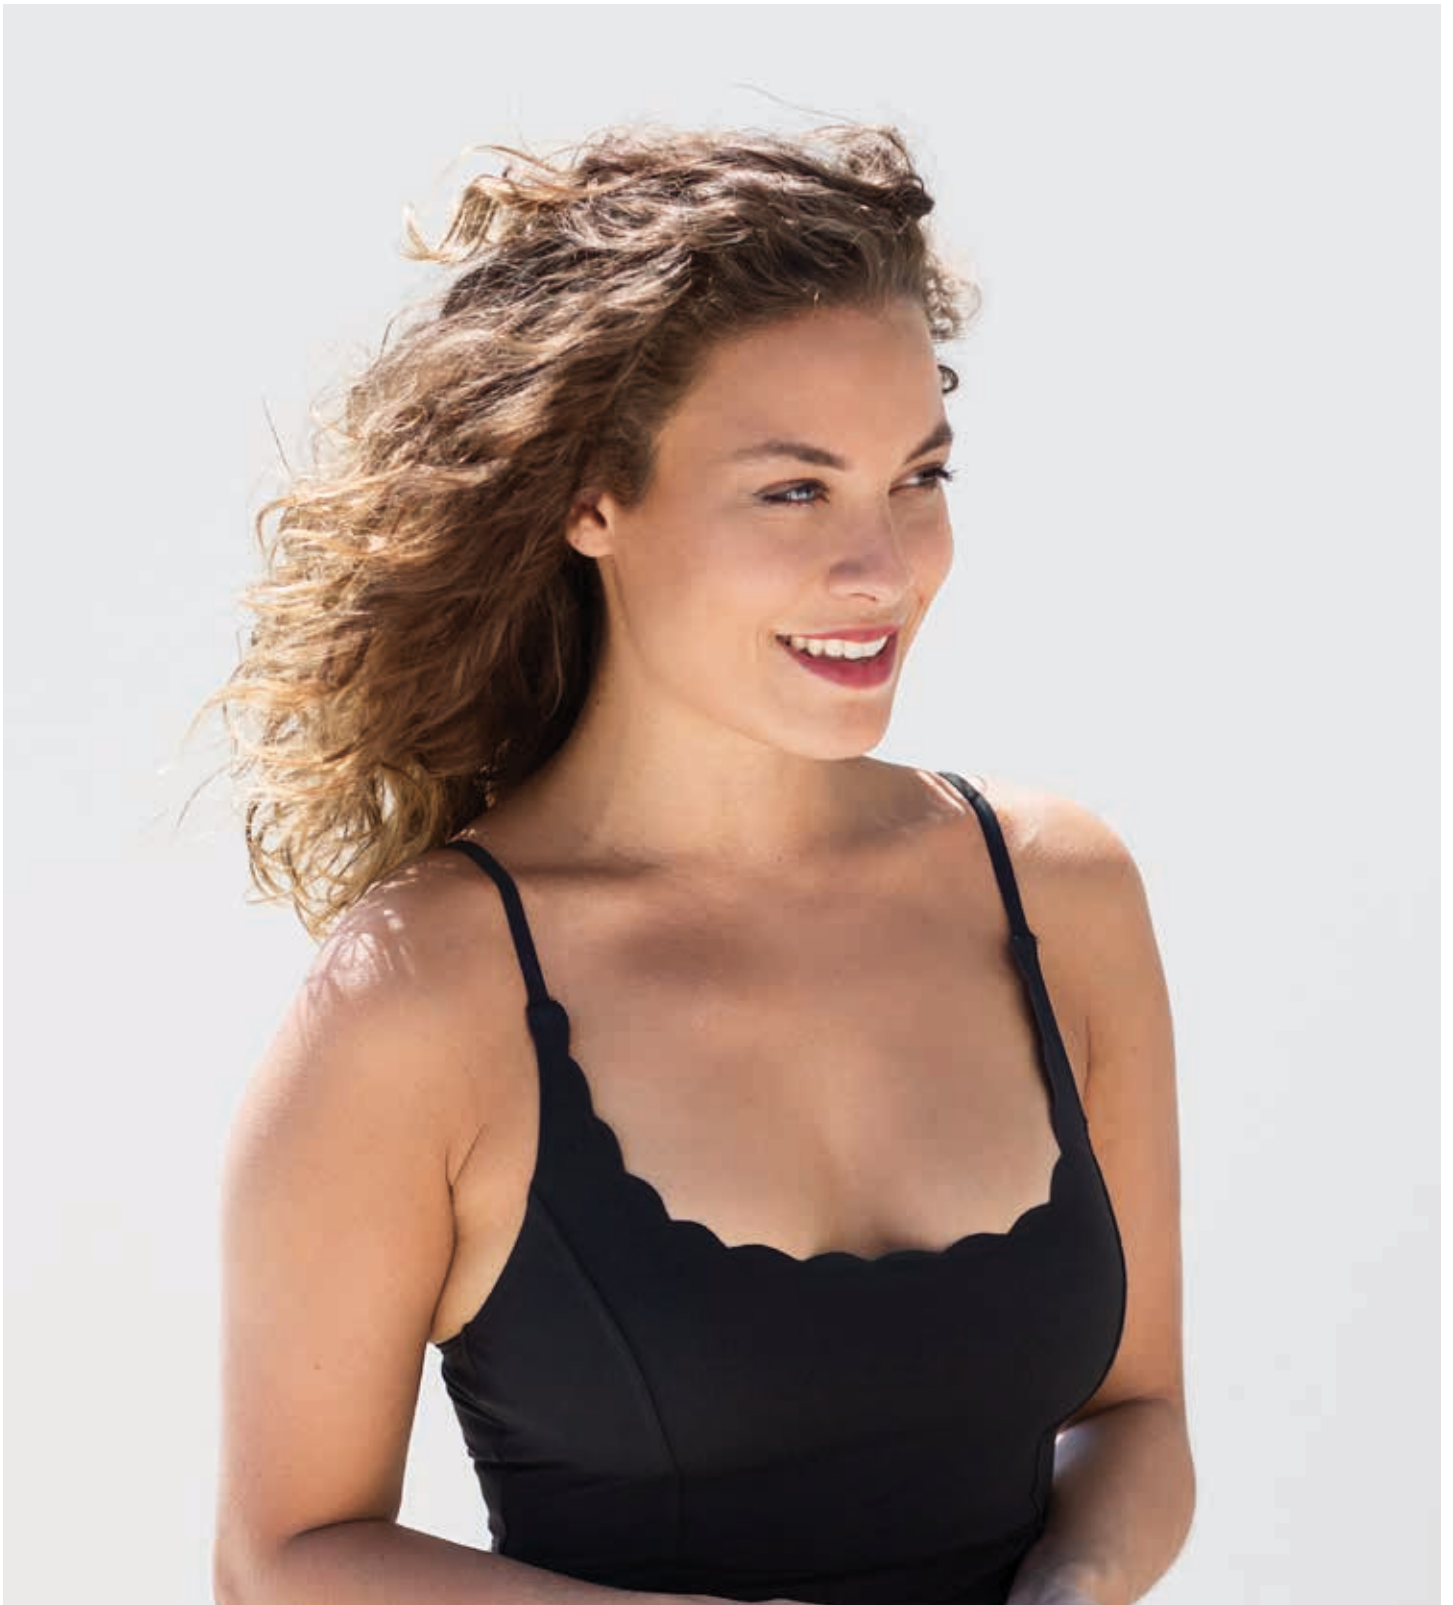

ELECTRONIC VOICE ASSISTANT

E.V.A. – your new voice control.

Lie down, close your eyes and enjoy! The Electronic Voice Assistant (E.V.A.), which is patent pending in Switzerland, is the first voice-controlled operation system. To start voice control during the tanning session, the user simply has to touch the display or say "EVA". The music volume and ventilation are then reduced for a few seconds so that voice commands can be given during this time. For enhanced safety and relaxation during tanning. Please contact us to check availability for your country.

3-ZONE VENTILATION WITH CLIMATRONIC PLUS

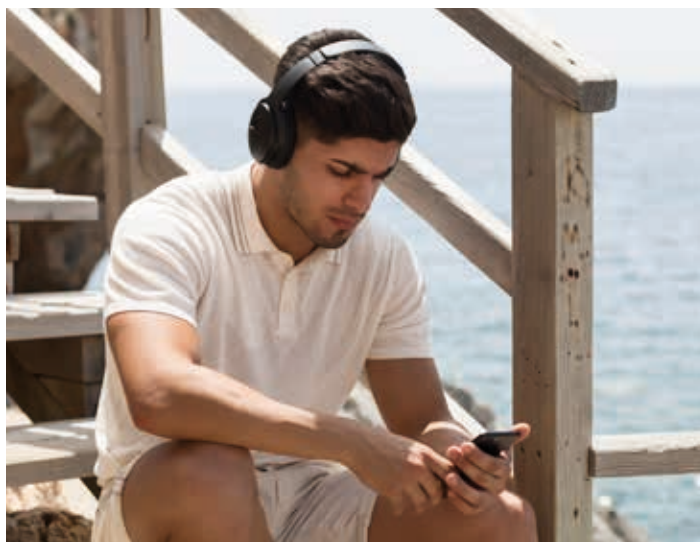

Perfect climate – from head to toe.

The 3-zone ventilation with intelligent automatic ventilation provides the best air conditioning there has ever been in an Ergoline sunbed. Foot, body and face ventilation can be individually adjusted and the whole body is bathed in an even flow of air, which is similar to a sea breeze. Whether it's refreshingly cool or warm and cosy – with Climatronic Plus you can achieve your ideal temperature in a closed tanning tunnel and maintain it, even in extreme room temperatures.

CINEMATIC SOUND

Bluetooth® Connect included.

The Cinematic sound system will impress you with a top class sound experience. Your customers can choose between studio channels, internal music and their own favourite playlist on their smart phone via Bluetooth®. On the internal SD card, as well as the pre-installed Ergoline music, you can also set up individual folders for various types of music, such as rock, pop or dance. A brand new feature are the relaxing sounds: your guests can enjoy a particularly relaxing break from everyday life with the sound of waves and meditative sounds of nature.

AQUA FRESH AND AROMA

Perfect refreshment during tanning.

Ergoline's Aroma program treats your customers with a subtle fragrance in the tanning tunnel and cabin so that they can enjoy the tanning experience with all their senses. The optimised Aqua Fresh atomised spray guarantees pleasant refreshment during tanning. The invigorating fresh kick can be adjusted separately for face and body. The perfect way to cool down, not just on hot summer days.

NFC CONNECT

Easy storage of comfort settings

NFC stands for Near Field Communication and it is a particularly fast and simple data transfer system, which is used for example for cashless payments. NFC Connect allows all comfort settings to be saved on the customer card – on their next visit, the sunbed is immediately adjusted to the customer's personal preferences. Genuine VIP treatment for ensuring customer loyalty. As the operator, you can also safely and quickly transfer all the settings to other sunbeds using NFC. It couldn't be easier!

PROFESSIONAL **HANDLING**

REMOTE ACCESS

Full control from anywhere.

Thanks to Remote Access, as a tanning studio operator you can access your new Prestige range from home and retrieve all the information on the equipment. Remote Access will also help you with servicing, since the technical service can carry out a remote diagnosis online. This reduces service times considerably and in some circumstances can even avoid service work completely. The data transfer (LAN/WLAN) obviously takes place through a secure JK server. Important information: You decide if and when you want to go online with your Prestige.

PROFESSIONAL SET-UP

More settings and even easier service.

In the Professional Set-Up Manager Plus, you can adjust all the settings for your device and play your own videos, for example. Maintenance instructions, such as lamps that need to be changed, will keep you and your employees informed about the status of the solariums. Of course these notifications can be deactivated at any time. Thanks to regular software updates, the new Prestige range always stays up to date.

HIGH QUALITY
MADE IN GERMANY

PAMPERED SKIN PERSONALISED TANNING

The Prestige Lightvision ensures an intense tanning experience with Beauty Light Complete skincare treatment. More than 200 Beauty Light LEDs care for the skin and improve tanning results by stimulating the supply of oxygen. There are two facial tanning technologies to choose from depending on the philosophy of the studio: Ultra Performance Plus for intense direct pigmentation or Smart Light Performance (SLP) with additional Beauty Light for a particularly long-lasting, natural tan. Personal Sunstyle offers the required tan at the touch of a button. From gentle to intensive – your customers will always get a personalised tanning result. Of course Ergoline's top model always includes all the comfort features, leaving nothing to be desired. Pure luxury!

PRESTIGE LIGHTVISION HYBRID TECHNOLOGY

HIGHLIGHTS

- More than 200 Beauty Light LEDs
- Hybrid LED Shoulder Tan
- Choose your UV intensity: from gentle to intensive
- 3-zone ventilation with Climatronic Plus
- Cinematic Sound incl. Bluetooth®
- E.V.A. voice control
- Exterior touch display with video function
- Interior touch display
- Certified by Medical Active (DE/AT/CH)

ACTIVATING LIGHT LED INTENSE TANNING

The new Prestige Bluevision uses the power of blue light! The Ergoline Prestige Bluevision is the first ever model to combine the latest UV technology with the power of 120 Activating Light LEDs. Blue light has an activating effect on the entire body and prepares the skin for tanning. This allows a particularly intense direct pigmentation. For an immediately visible wow effect!

With Personal Sunstyle, you can choose from three different tanning programmes – from gentle to intensive. Standard comfort features including Climatronic Plus, Surround Cooling Plus, Cinematic Sound, Voice Guide and Aqua Fresh & Aroma guarantee the highest level of tanning comfort, which will impress even the most demanding guests.

PRESTIGE BLUEVISION

- 32 Beauty Light LEDs
- Smart Light Performance (SLP)
- Hybrid Performance
- Choose your UV intensity: from gentle to intensive
- Fully equipped as standard
- Climatronic Plus
- 3D-Sound with Bluetooth®
- Smart Control

TANNING WITH CONFIDENCE

The Sun Angel guarantees a carefree tan. The personalised UV mix combines optimum tanning results with the bio-positive benefits of sunlight. The production of vitamin D has been confirmed by an independent institute. The intelligent skin sensor is a photosensitive precision instrument, measuring the individual UV sensitivity of the skin. The Sun Angel uses the measurement to calculate a personalised UV dose. Complete analysis of the skin condition takes less than ten seconds and provides protection against sunburn with sensor control. When the sensor is not used, the Sun Angel emits only the statutory dose for an initial tanning session.

SUN ANGEL DUO 1400

INDIVIDUAL PERFORMANCE

HIGHLIGHTS

- Integrated skin sensor
- Reduced risk of burning
- Proven build-up of vitamin D
- Two tanning programmes
- Vitamin D Sunshine: bio-positive benefits
- Styling Sunshine: intense tanning
- Fully equipped as standard
- 3D-Sound with Bluetooth®
- Certified by Medical Active (DE/AT/CH)

SIMPLY SMART

Smart Light Performance (SLP) enables an intense and long-lasting tan in the facial area. The red Beauty Light improves blood circulation, thus optimizing the tanning result – without the need for stronger UV doses. At the same time, the Beauty Light cares for skin, even during the tanning session, and promotes a particularly lovely and fresh complexion. The three additional smartsun spaghetti lamps enhance the spectrum with a combination of UVB and Beauty Light. After just a few hours, a lovely, natural and long-lasting tan develops. Hybrid Performance technology also ensures an intense and natural tan for the body. The 2:1 ratio of 34 smartsun Plus lamps and 16 Trend Advanced UV lamps guarantees particularly lovely and long-lasting tanning results.

AFFINITY 990 SLP

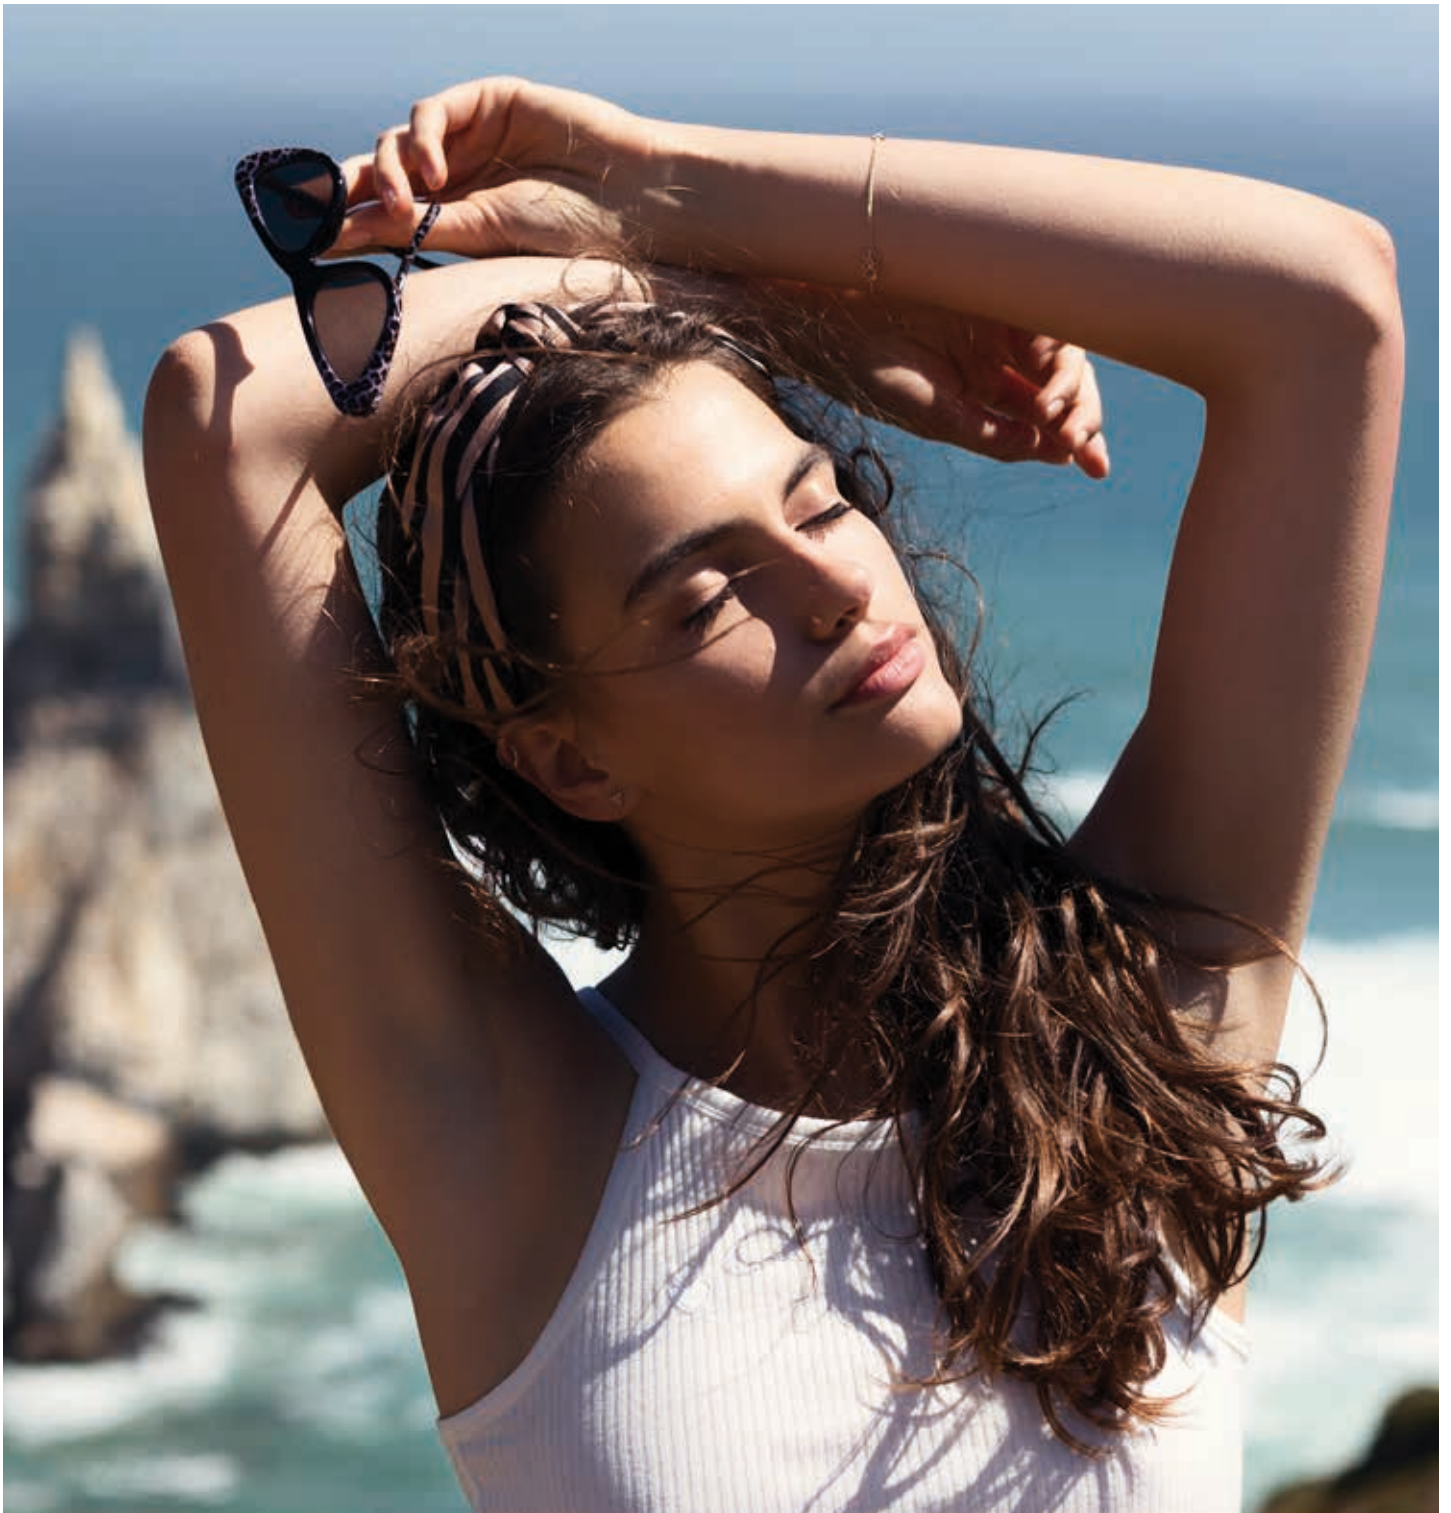

HYBRID PERFORMANCE

HIGHLIGHTS

- Smart Light Performance (SLP)
- Hybrid Performance
- Natural and long-lasting tan
- Large Bodyshape base (208 x 90 cm)
- Air Condition Plus
- Aqua Fresh & Aroma
- 3D-Sound incl. Voice Guide

UNBEATABLE VALUE FOR MONEY

The Affinity range combines classic elegance with clever ideas and unbeatable value for money. With Dynamic Performance technology, the Affinity 990 always produces intense tanning results – from the first minute to the last. Air Condition, Aqua Fresh and Aroma as standard, as well as optional 3D shoulder tanners, leave nothing to be desired. Like the top model, the Affinity 900 has 4 facial tanners and 50 UV lamps. It also features Advanced Performance Technology (Turbo Power). Air Condition as standard and optional 3D sound with shoulder tanners ensure a relaxing tanning experience.

AFFINITY 990 / 900

DYNAMIC PERFORMANCE

HIGHLIGHTS

- Affinity 990: Dynamic Performance
- Affinity 900: Advanced Performance
- 50 UV lamps
- 4 Ultra Performance Plus facial tanners
- Large Bodyshape base (208 x 90 cm)
- Air Condition Plus
- Aqua Fresh & Aroma
- 3D-Sound incl. Voice Guide

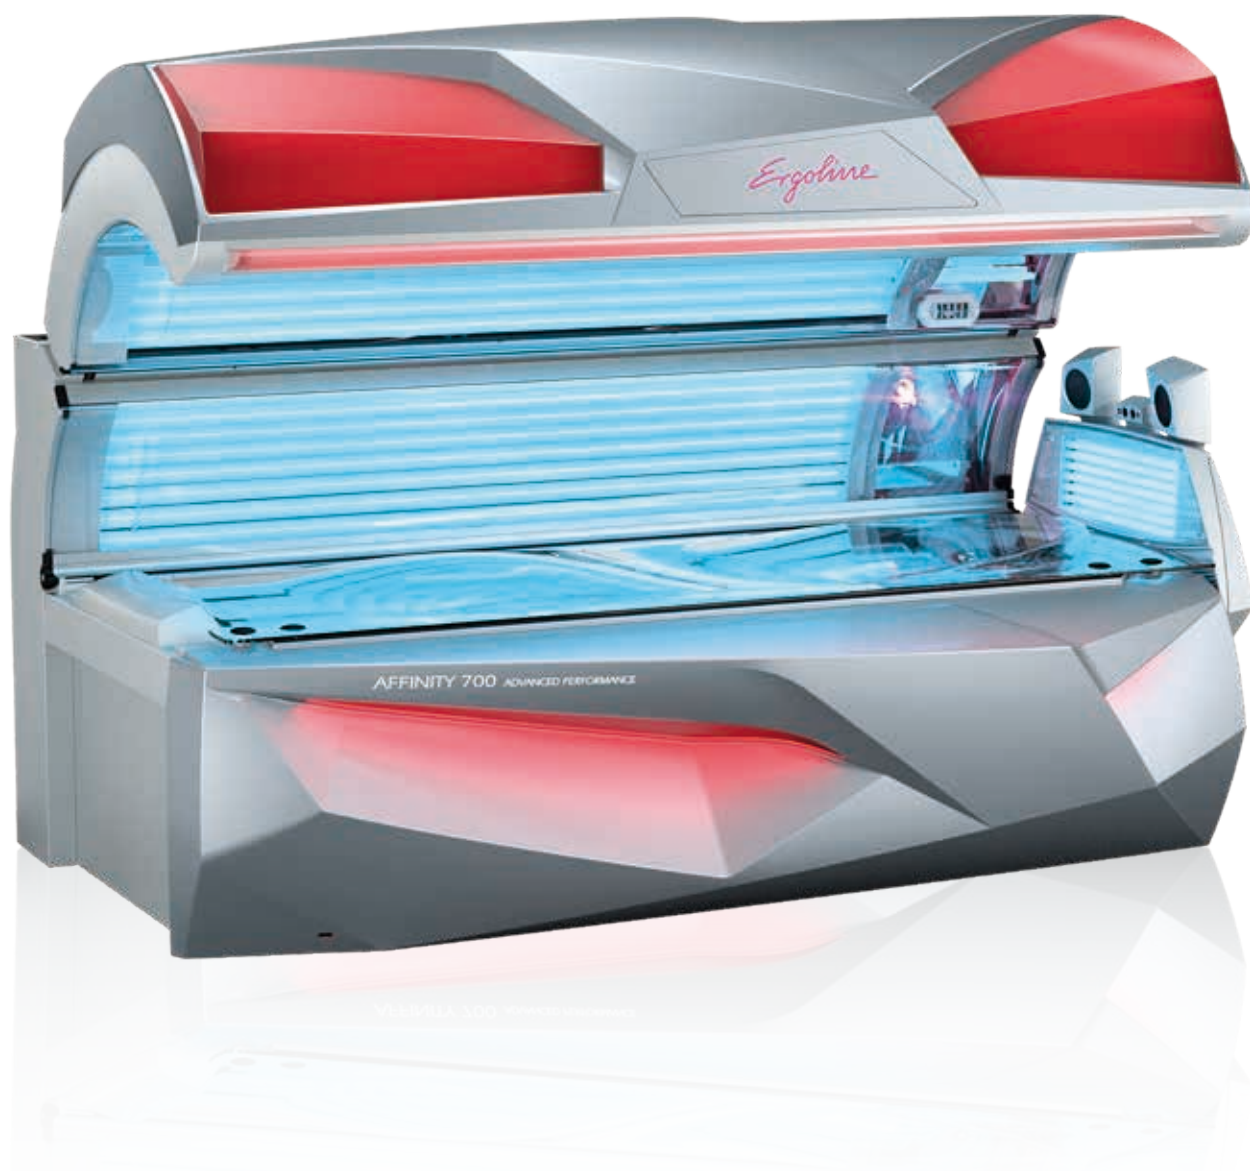

ENTRY-LEVEL MODEL IN THE **AFFINITY RANGE**

The Ergoline Affinity 700 offers state-of-the-art sunbed technology at an unbeatable price. Its distinctive lines, eye-catching LED Light Show and brightly lit tanning tunnel invites to an enticing tanning experience! As the operator, you can use the integrated Professional Set-up Manager to adjust all settings easily. 46 UV lamps with new Advanced Performance technology offer a significantly improved tanning performance in the body area compared with previous models. In the facial area, the Ultra Performance Plus technology with 3 facial tanners and 2 additional UV-B 0.3 spaghetti lamps guarantee optimum tanning performance.

AFFINITY 700

ADVANCED PERFORMANCE

HIGHLIGHTS

- Turbo Power and Twin Power
- 46 UV lamps
- 3 Ultra Performance Plus facial tanners
- Bodyshape base (200 x 80 cm)
- Air Condition Plus (in the Turbo Power)
- 3D-Sound incl. Voice Guide

WELLNESS FOR **THE SKIN**

The Ergoline Balance range ensures a particularly gentle tanning experience with low pressure technology. This is made possible by the beneficial light of Hybrid Performance, which combines sunlight with Beauty Light. This means that, in spite of a lower UVA dose, a beautiful and natural tan can be achieved. Hybrid Performance uses an intelligent combination of sunlight and Beauty Light to reduce the side effects of the sun. The typical drying effects on the skin and unpleasant smell of UV now belong to the past. After tanning on the Ergoline Balance, the skin feels velvety smooth. For a particularly pleasant tanning experience! Beauty Select means users can have their own individual beauty or tanning programmes.

BALANCE 770 / 700

HYBRID PERFORMANCE

HIGHLIGHTS

- Hybrid Performance
- 32 x UV + 14 x Beauty Light
- Pure low pressure technology
- Frosted Acrylic (200 x 80 cm)
- Balance 770:
 - Choice of UV intensity
 - Without any UV if required
 - Climatronic
 - Certified by Medical Active (DE/AT/CH)

THE COMPACT CLASS BY ERGOLINE

With dual circuit ventilation system, 3D Sound and NFC Connect the Inspiration 600 offers the kind of comfort you would otherwise only find at the top of the range. With 4 facial tanners and 42 UV lamps (Smart Performance), the Inspiration 600 is at the top end of the compact class. With 3 facial tanners and 38 UV lamps, the Inspiration 500 with Smart Performance technology offers outstanding tanning performance with energy savings.

INSPIRATION 600 / 500

SMART PERFORMANCE

HIGHLIGHTS

- Inspiration 600 – Twin Power:
 - 42 UV lamps
 - 4 Ultra Performance Plus facial tanners
 - NFC Connect
- Inspiration 500 – Twin / Super Power:
 - 38 UV lamps
 - 3 Ultra Performance Plus facial tanners

SMART TANNING

The Inspiration 500 SLP is the affordable entry-level model in Ergoline's Hybrid Technology. Smart Light Performance (SLP) combines intensely tanning UV light with Beauty Light skincare in a high pressure facial tanner. Despite reduced UVA, the smartsun bulb, a glass reflector with 120 layers of special coating and a newly designed filter glass combine to produce an intensive and long-lasting tan. The red Beauty Light improves blood circulation, thus optimizing the tanning result – without the need for stronger UV doses. At the same time, Beauty Light cares for the skin, even during the tanning session, and promotes a particularly lovely and fresh complexion. Three additional smartsun spaghetti lamps enhance the spectrum with a combination of UVB and Beauty Light. After just a few hours, a lovely, natural and long-lasting tan develops.

INSPIRATION 500 SLP

HYBRID PERFORMANCE

HIGHLIGHTS

- Smart Light Performance (SLP)
- 24 x 160 W smartsun + 14 x UV lamps
- Hybrid Performance
- Natural and long-lasting tan
- Air Condition Plus
- 3D-Sound incl. Voice Guide

COMPACT **POWER PACKAGE**

38 UV lamps and 3 Ultra Performance facial tanners including two UV-B spaghetti lamps ensure a seamless all-round tan from head to toe. Comfort is also a top priority. The Bodyform Plus base with its integrated headrest guarantees an even distribution of body weight so that even longer tanning sessions does not become uncomfortable. Stereo Sound Plus with MP3 dock provides the best in music entertainment.

PASSION 350 SUPER POWER

HIGHLIGHTS

- 3 Ultra Performance Plus facial tanners
- 38 UV lamps
- Particularly compact dimensions
- New mood design
- Bodyform Plus base (215 x 78 cm)
- Built-in timer (Time Control)

FLAIR OF A NEW ERA

With 30 UV lamps and 3 Ultra Performance facial tanners, the Ergoline Flair 250 provides UV equipment, which you would normally only expect from higher class models. The Bodyform Plus base with integrated headrest and the Comfort Cooling system with adjustable ventilation nozzles for head and body ensure a relaxing tanning session. The Ergoline Flair 200 has a lot to offer with minimal space requirement. Its particularly compact dimensions mean it can be fitted in everywhere. 27 UV lamps provide an intense and even body tan. With an Ultra Performance facial tanner, even the entry-level model features top class innovative glass reflector UV technology – from a 230 V mains supply! There's no shortage of comfort features either: The comfortable Bodyform Plus base with integrated headrest, Comfort Cooling and Stereo Sound ensure perfect relaxation.

FLAIR 250 / 200

SUPER POWER

HIGHLIGHTS

- Flair 250:
 - 30 UV lamps
 - 3 Ultra Performance facial tanner
- Flair 200:
 - 27 UV lamps
 - 1 Ultra Performance facial tanner
 - 230 V connection (mains plug)
- Particularly compact dimensions
- Bodyform Plus base (215 x 71 cm)
- Built-in timer (Time Control)

FITNESS TRAINER **WITH BEAUTY EFFECT**

The Sunrise 7200 Hybrid Light LED offers a natural, seamless tan with additional skincare. The combination of UV light and red Beauty Light ensures a glowing, long-lasting tan, as well as skincare. During the tanning session, the face and decollete area are treated by special Beauty Light LEDs – for smooth skin and a particularly fresh complexion. The 14 smartsun Plus lamps also guarantee glowing, beautiful skin for the body. With Personal Sunstyle, the Sunrise Hybrid Light also offers three customised tanning programs – so your customers can decide how they would like to enjoy their tanning session. The patented Vibra Shape vibration training helps with weight loss, firms up connective tissue and prevents cellulite.

SUNRISE 7200

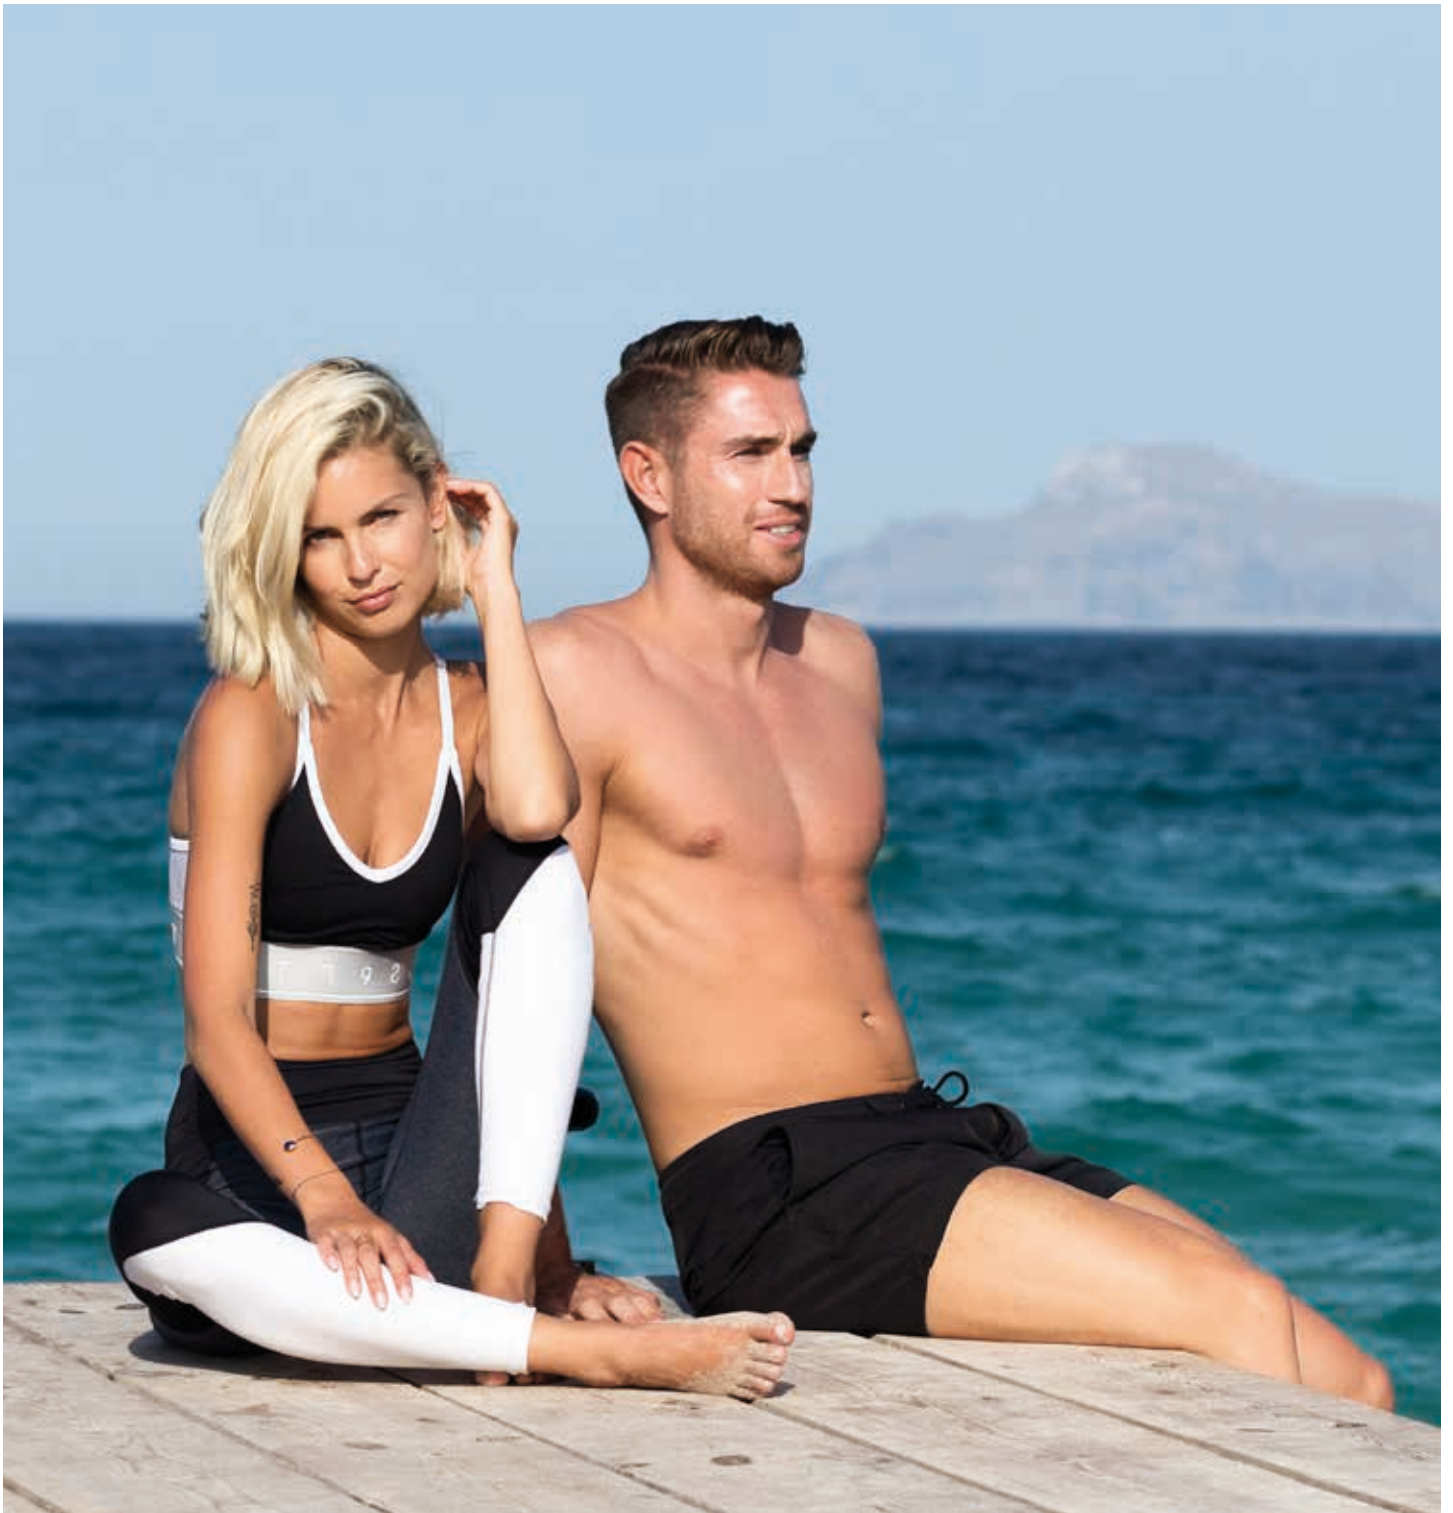

HYBRID LIGHT LED

HIGHLIGHTS

- Hybrid Performance
- 14 x 200 W smartsun + 34 x 200 W UV lamps
- 60 Beauty Light LEDs
- Choice of UV intensity
- Vibra Shape vibration training
- Four fitness programs
- Seamless tan
- Extensive comfort features

SUNNY FITNESS TRAINING

With Vibra Shape, a tanning session on the Sunrise also becomes a fitness session at the same time. Vibra Shape simulates 20,000 steps in just 10 minutes! Vibration training has a whole range of positive effects on fitness. It supports muscle generation, stimulates lipid metabolism, tautens the connective tissue and improves physical mobility and coordination. The enhanced supply of oxygen to the skin also intensifies the tanning effect. The choice of four different training programmes and side-alternating vibration, which is gentle on the joints, makes Vibra Shape the ideal training partner – even for older users. Make the Sunrise a personal trainer for your customers – in a completely private environment.

SUNRISE 7200 / 6200

DYNAMIC / SMART PERFORMANCE

HIGHLIGHTS

- Sunrise 7200 – Dynamic oder Smart Performance
 - LED Light Show
- Sunrise 6200 – Smart Performance
 - New design
- 48 UV lamps with 180 W or 200 W
- Vibra Shape vibration training
- Four fitness programmes
- Seamless tan
- Extensive comfort features

TURBO POWER

The Sunrise is not only known for being a respected investment, but also for creating beautiful results for your customers. Whether you are reinforcing your current line-up or bringing in something new for your customers to try, the Sunrise will give your comfort features, high-performance and easy operation. The patented Vibra Shape vibration training helps with weight loss, firms up connective tissue and prevents cellulite.

SUNRISE 480

ADVANCED PERFORMANCE

HIGHLIGHTS

- Advanced Performance (Turbo Power)
- 48 x 180 W UV lamps
- Vibra Shape vibration training
- Four fitness programmes
- Seamless tan
- Extensive comfort features

SMART POWER

The Ergoline Essence 440 offers efficient Smart Power technology, particularly low space requirements and great value for money. Highly efficient ballasts result in a reduced energy requirement. All this with an impressive 200 Watt tanning performance. The patented Vibra Shape vibration plate turns the tanning session into a fitness training at the same time. The vibration is gentle on the joints, promotes weight loss, firms up connective tissue and prevents cellulite. The improvement in circulation also intensifies the tanning results. For a perfect tan in just 15 minutes, without the typical white areas on the shoulders and back.

ESSENCE 440

SMART POWER

HIGHLIGHTS

- Energy-saving Smart Power
- 44 x 200 W UV lamps
- Vibra Shape vibration training
- Four fitness programmes
- Seamless tan
- Compact dimensions

BEAUTY & **FITNESS**

Beauty Light treatments combined with patented Vibra Shape vibration training are a mega trend not only in the USA. The CVT 32 fits into even the smallest spaces. The Beauty Angel CVT 32 light treatment using Vibra Shape provides a whole body approach to beauty and fitness. The vibration plate with alternating side movements similar to natural walking trains all muscles from legs up into the back. At the same time, calories are burned and cellulite can be prevented effectively thanks to the tightening of the connective tissue. Improved circulation and micro-circulation reinforce the results of the light treatment.

BEAUTY ANGEL CVT 32

BEAUTY LIGHT

HIGHLIGHTS

- 32 x 180 W Beauty Light
- UV-free treatment
- Can be used at any age / for any skin type
- Proven effectiveness
- Vibra Shape vibration training
- Four fitness programmes
- Integrated timer (Time Control)
- Compact dimensions

PURE BEAUTY LIGHT

Beauty Angel stands for an innovative light and well-being treatment that reduced the signs of the times, meeting the demand for gentle and natural skin rejuvenation. Multiple uses make the Beauty Angel an interesting addition to the service range at up-market fitness clubs, cosmetic salons, well-being and spa centres, as well as tanning salons.

The entry-level model is fitted with 28 Beauty Light lamps in a customized outfit. What makes it particularly practical is its low power consumption, which only requires a 230 V power connection.

BEAUTY ANGEL C 28

BEAUTY LIGHT

HIGHLIGHTS

- 28 Beauty Light lamps
- UV-free treatment
- Can be used at any age / for any skin type
- Proven effectiveness
- Compact dimensions
- Integrated timer (Time Control)
- 230 V connection (mains plug)

EFFECTIVE BEAUTY TREATMENT

The patented Energizing Light Technology (ELT) fulfils the need for a really gentle but highly effective beauty treatment. Light from various active spectrums ("Beauty Light Plus") penetrates deep into the skin and stimulates the body's own production of collagen. The light is very gentle and exceedingly pleasant. Extensive studies and a research project at Ulm University have confirmed the outstanding effectiveness of Beauty Light Plus. The light technology has also been recognised by Medical Active for innovative technology. To achieve the best results, we always recommend using special cosmetic products during the treatment, such as UPSolute Photofusion. The effectiveness of the active cosmetic ingredients is enhanced by the light – leading to immediately visible results and enthusiastic users.

BEAUTY ANGEL ELT

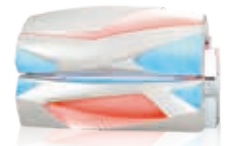

BEAUTY LIGHT PLUS

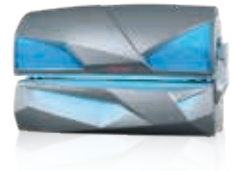

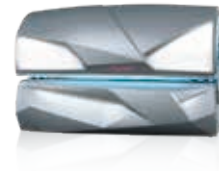

HIGHLIGHTS

- Energizing Light Technology
- Beauty Light Plus active spectrums
- UV-free treatment
- Can be used at any age / for any skin type
- Proven effectiveness
- Perfect combined with cosmetics
- Certified by Medical Active (DE/AT/CH)

INFORMATION

This price list takes effect from January 2020. It will retain validity until a new price list is published. The products offered in this price list are exclusively distributed by JK-International GmbH and their trade partners. The prices quoted are list prices and exclude statutory VAT.

The products indicated in this price list are delivered ex works. Changes in the technical execution and design, price and delivery possibility reserved. All prices for our equipment are excluded time control system.

The products listed must not be exported to or operated in either the USA and Canada JK-International GmbH shall not accept any producer's liability in this case. It is expressly pointed out that any violation of this ban may subject the exporter and/or operator to high risks of liability.

You may obtain all wearing parts, such as bulbs, lamps, starters, Aqua Fresh & Aroma refit kits as well as cleaning and cosmetic products and consumables from JK-International GmbH, Köhlersshohner Strasse 60, 53578 Windhagen, Germany, phone +49 2224/818-0.

WARRANTY

JK-International GmbH guarantees the purchaser for a period of 24 months starting from the date of delivery that the goods are free from defects which would ruin or reduce their sales value. High-pressure lamps, low-pressure lamps and starters as well as base acrylics are components that are subject to a process of natural wear. Defect-related claims on part of the purchaser shall be ruled out if the product defect is the result of wear.

SUITABLE COSMETICS

Additional turnover and happy customers.

C2 for sunbeds and UPsolute Photofusion for cosmetic skincare with Beauty Light Plus: we have the right cosmetic products for your services. With the right care products, you can increase customer satisfaction and achieve attractive additional sales. We will be happy to advise you on successful merchandising in your studio.

ORIGINAL LAMPS

The original guarantees 100% performance.

The tanning result is only as good as the lamp in combination with the corresponding solarium. The original light sources from the market leader are perfectly adapted to your Ergoline sunbeds. For all-round beautiful tanning results and enthusiastic customers. We will assist you to find the perfect lamp for your sunbed.

MARKETING SUPPORT

Successful advertising with the number 1.

Attract attention and bring more lifestyle to your studio with Ergoline! In our web shop, you will find a large selection of give-aways, studio decorations and other printed advertising material which can be ordered via your official Ergoline dealer: www.ergoline-webshop.com

MEDICAL ACTIVE

Certified light technologies.

Selected Ergoline and Beauty Angel models have been awarded the Medical Active certification for innovative technologies. The international healthcare network identifies special products and services, which promote bio-positive benefits and support the long term well-being of users. Thanks to the Medical Active certification, you can target new customer groups, stand out from the competition and underline the bio-positive effects of your services (DE/AT/CH).

LUST AUF SONNE.TV

In-store TV for your salon.

With Lust auf Sonne.tv, we offer an easy to use In-store TV system at a fair price, with up-to-date news, regional weather forecasts and free access to millions templates, which can be adapted to individual demand, whether for use in the waiting room, on the counter, in a display window or in any booth. With your own in-store station you can entertain your guests and at the same time draw attention to your range of services.

Subject to availability. Contact us for more information.

SUNLYNC SOFTWARE

The certified software solution.

SunLync fulfills all business requirements, creates a network between your salons and digitalises your documentation, such as skin type definitions. SunLync is already used successfully in more than 2,500 studios and, thanks to regular developments, ensures that future requirements will also be fulfilled.

Subject to availability. Contact us for more information.

JK-GROUP NUMBER 1

Your partner for success.

We can supply everything you need for the successful operation of your salon. The entire team will be happy to show you how you can attract new customers with attractive additional products. If you should encounter any technical problems, our Technical Customer Services team provides fast and efficient support. For more information on all JK products, request our free Lightstyle Business Magazine.
